TinyLlama 1.1B

Smallest model, runs on any device including WASM fallback

Size: 0.6GB Tiers: MINIMAL, LOW, MID, HIGH

Load Model

Gemma 2 2B Instruct

Balanced performance and quality for mid-range devices

Size: 1.4GB Tiers: LOW, MID, HIGH

Load Model

Llama 3.2 3B Instruct

High-quality responses for capable devices

Size: 1.9GB Tiers: MID, HIGH

Load Model

Phi-3.5 Mini Instruct

Recommended

Best quality, requires high-end hardware

Size: 2.1GB Tiers: HIGH

Project brief

STEP 1 OF 2

Project title

On-device AI dashboard MVP

Describe what you need

We're building a privacy-first dashboard that runs LLMs locally with WebGPU. Need help shipping the React UI and the inference layer.

Key skills

React, TypeScript, WebGPU

Budget / day

\$80

Duration

6 weeks

@ Matching runs locally

Match candidates →

100% local

Briefs and matching run on-device. No upload.

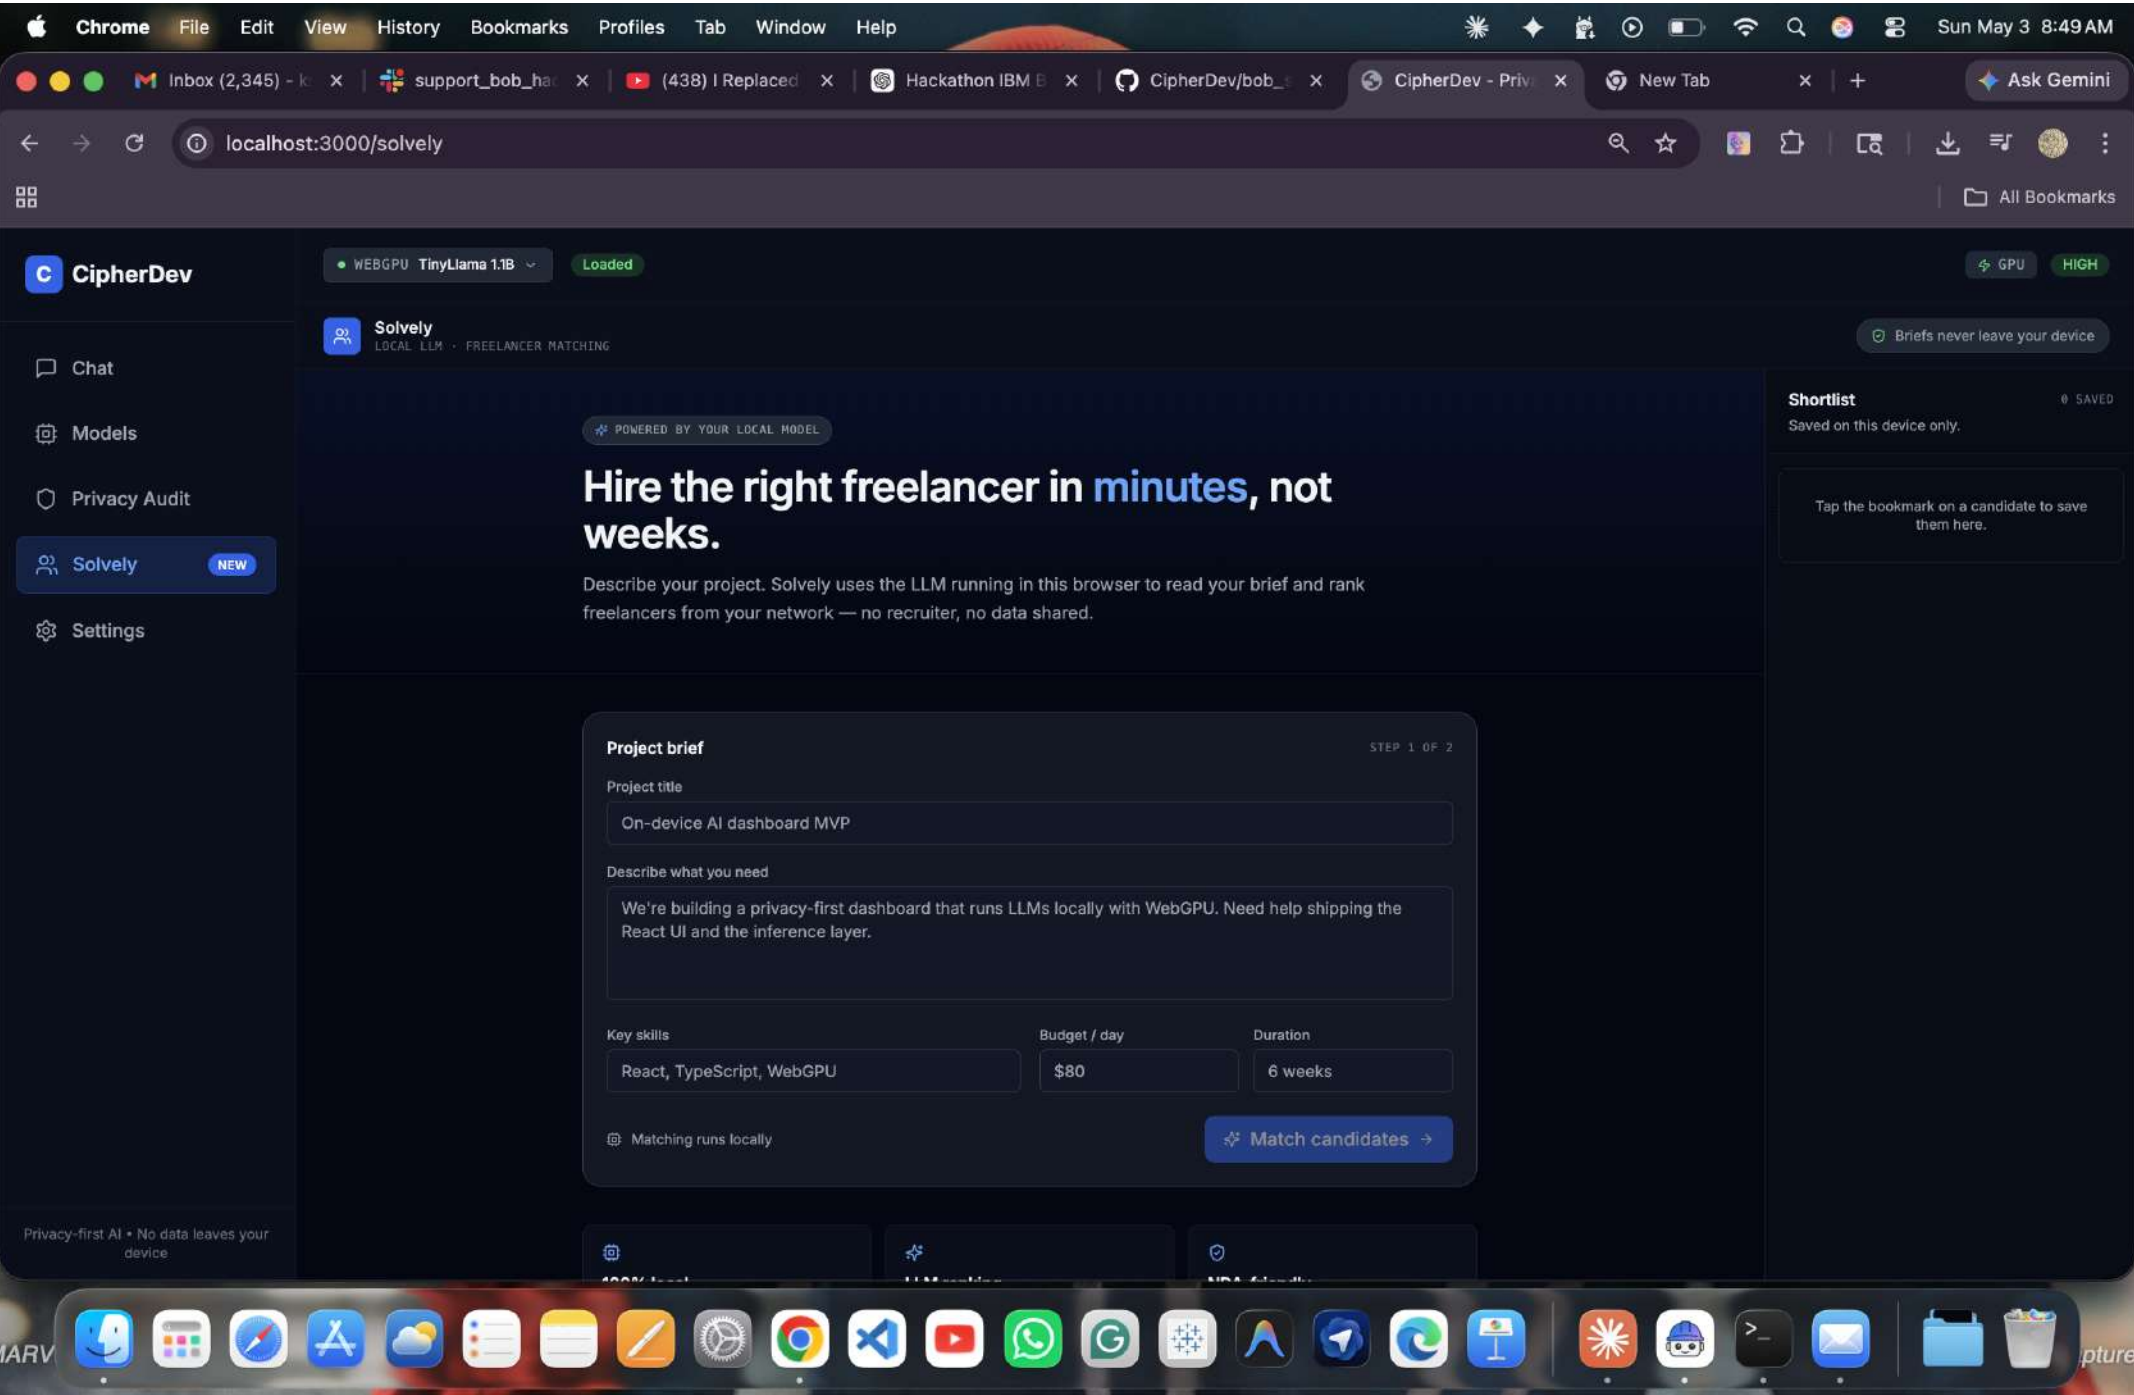

LLM ranking

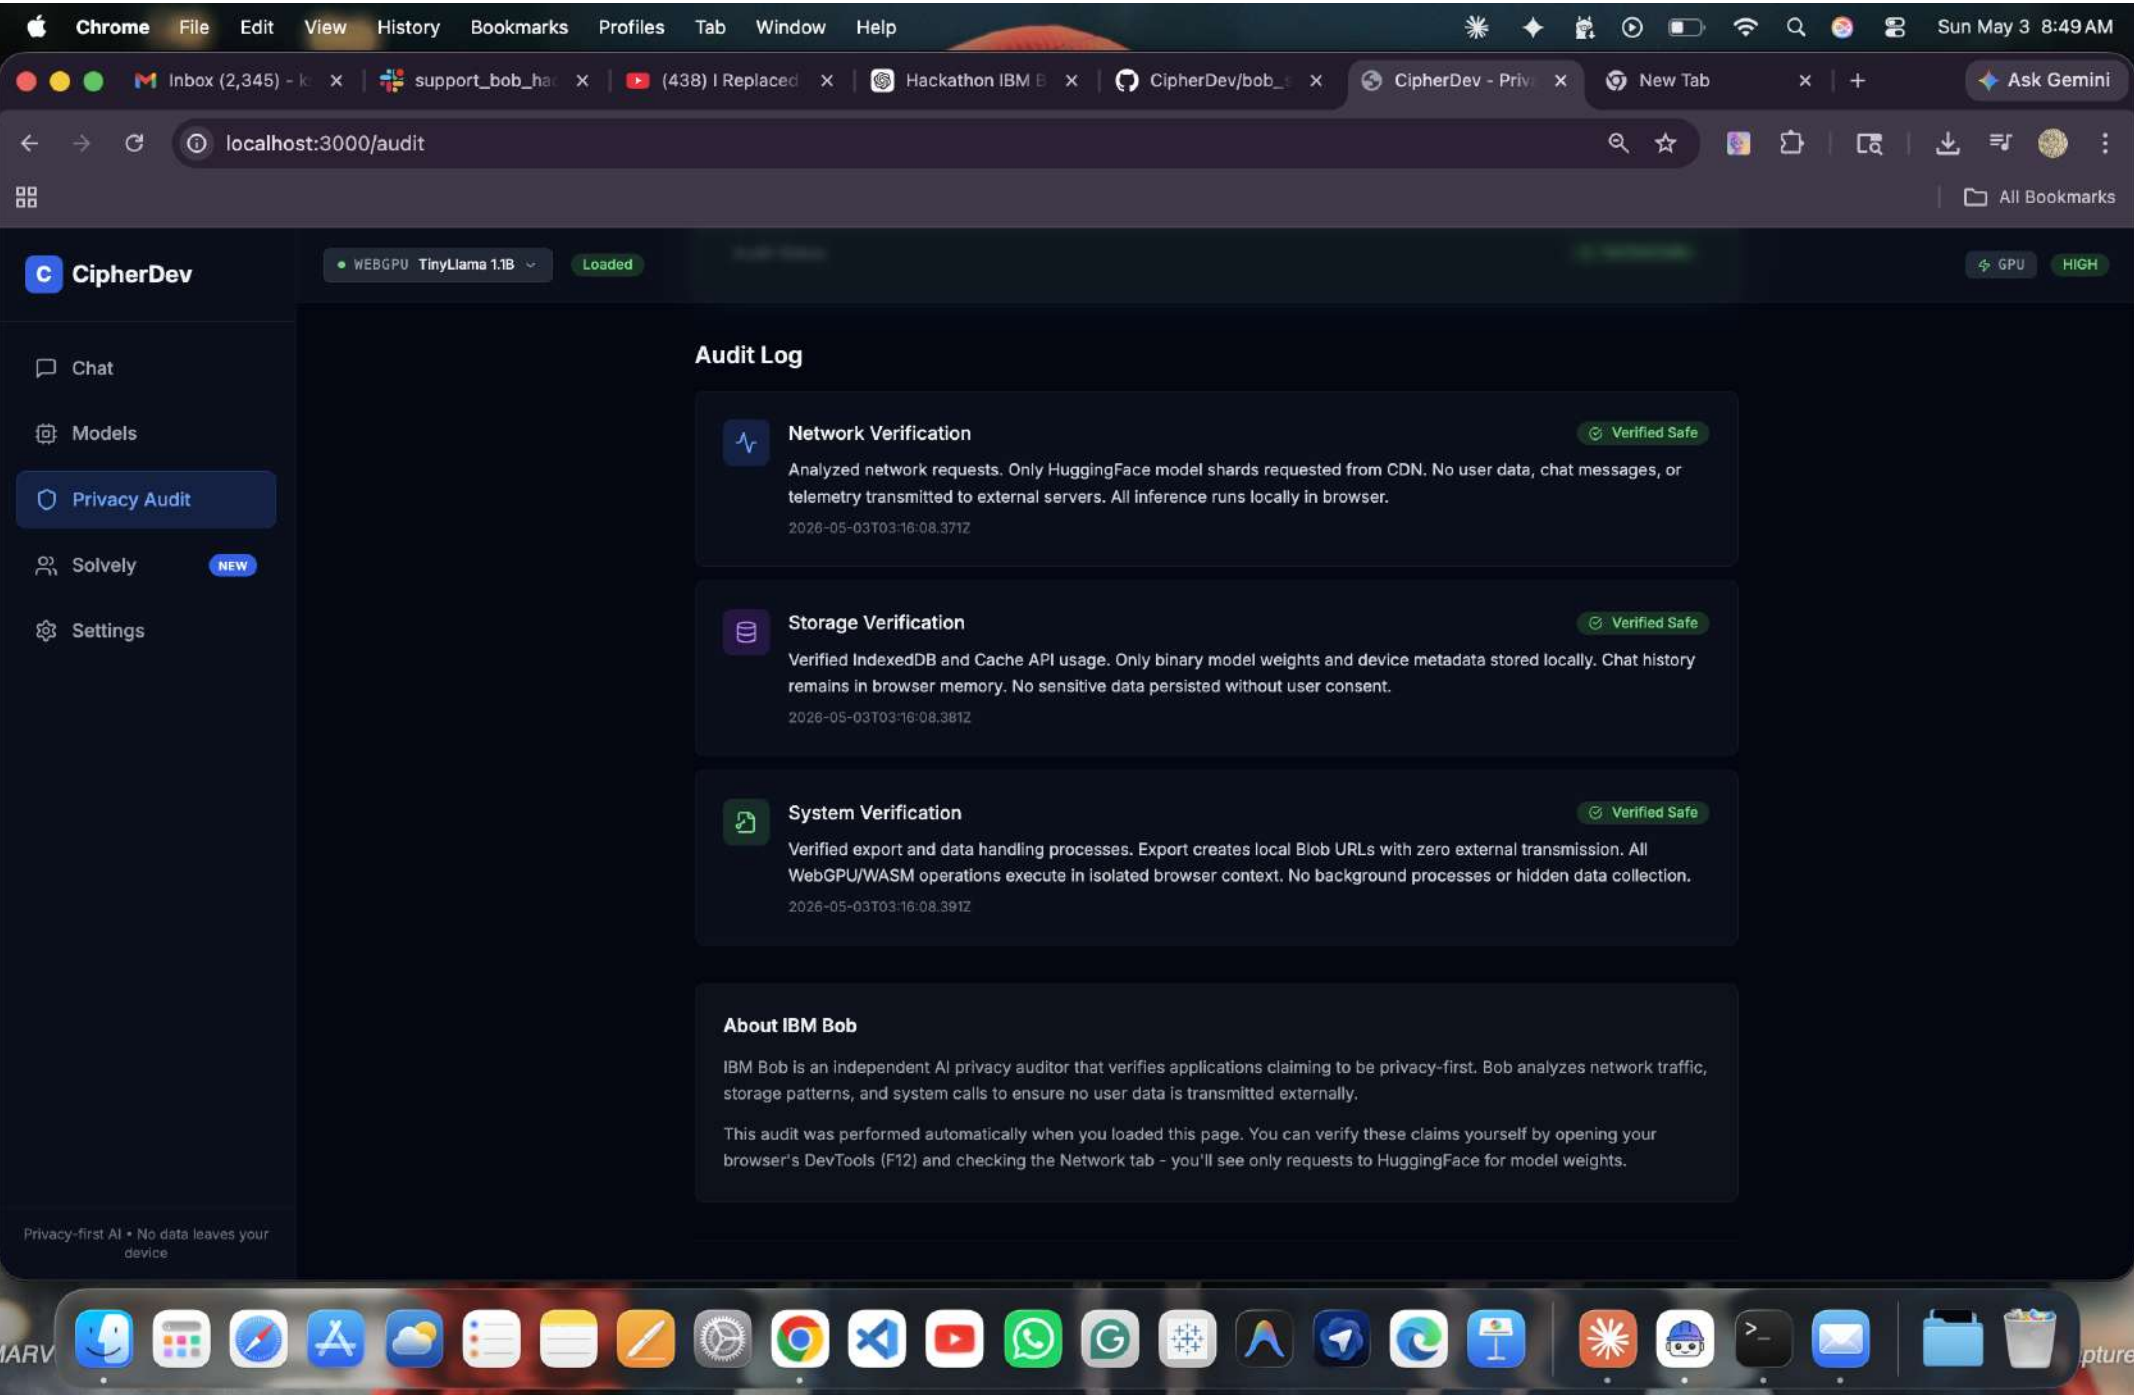

Your model reads briefs and ranks talent.

NDA-friendly

Safe for legal, healthcare and IP work.

IBM Bob Privacy Audit

Independent verification of CipherDev's privacy guarantees by IBM Bob, the trusted AI privacy auditor.

Checkmark

Privacy Certification

IBM Bob has analyzed the CipherDev runtime and certifies that all network requests are restricted to fetching static model weights from HuggingFace. **No chat data, no telemetry, and no user information leaves this device.**

All inference happens locally using WebGPU or WASM. Your conversations are stored only in your browser's local storage and can be exported as local files.

Audit Status

Verified Safe

Network

Network Verification

Analyzed network requests. Only HuggingFace model shards requested from CDN. No user data, chat messages, or telemetry transmitted to external servers. All inference runs locally in browser.

2026-05-03T03:16:08.371Z

Verified Safe

Database

Storage Verification

Verified IndexedDB and Cache API usage. Only binary model weights and device metadata stored locally. Chat history remains in browser memory. No sensitive data persisted without user consent.

Verified Safe
